

## Seminar Available

### “Christ and Christmas” – Mary Baker Eddy, Artist of Light

**a presentation for students of Christian Science by George Denninger**

I will share reproductions of the pictures from the seventh edition published in 1906 and offer insights regarding the spiritual intent of the book.

**Length:** 2 1/2 to 3 hours

**Equipment:** Please provide your own screen and projector that can plug into my PC laptop.

**Space Requirements:** If full scale reproduction prints are offered, I will need 35' wall width for panels mounted on easels. It is useful to have them all viewable at the same time, because I refer back and forth and make comparisons.

**About the Speaker:** George Denninger has been a practicing Christian Scientist and artist for over fifty years and has been pursuing the deeper meaning of Mary Baker Eddy's book, *Christ and Christmas* since 2002. He began lecturing on the subject in 2005 to an ever-expanding audience throughout the USA. He loves to share the wonderful message that Mary Baker Eddy offers us in her illustrated book.

**Fee:** Transportation and housing if needed

#### **Inquiries:**

Discover what Mary Baker Eddy tells us about herself and about our identity. She wrote in a letter to Edward A. Kimball, “For the world to understand me in my true light, and life, would do more for our Cause than aught else could.”
